

In maths...

- Year 4 will continue to develop their understanding of time, shape and position
- Year 3 will continue their work on time, shape and end the year with statistical work drawing and interpreting bar charts

In PE...

- Scatterball - We will be developing our throwing and striking techniques before combining them into a competitive game
- No-Dribble Football - We will be developing our passing and shooting skills. We will be developing our leadership skills through teamwork

In music we will...

- Look at using body and tuned percussion to create simple compositions
- Identify structure and texture within music

In french we will...

- Continue to identify and use familiar phrases to build our french conversational skills
- Read and say numbers to 60
- Form sentences to describe a trip to the supermarket.
- Read and write a version of a well-known story

In writing we will...

- Be using the story 'Arthur and the Golden Rope' by Joe Todd-Stanton as our vehicle text
- Use our taught skills to produce a myth narrative and an information report
- Continue to work on our spelling and presentation skills
- Develop our editing skills to help us improve our own work

**Year 3 and 4
Summer 2
2026**

In design technology we will...

- Design and make a textiles product
- Develop our understanding of different stitching techniques and how we can join fabrics together
- Evaluate our product and improve it during the making process

In religion and worldviews we will...

- Explore how the Bible came into existence and how its contents have been impacted by people and events
- Explore why the Bible is significant to many people today and how it is used in different churches

In geography we will...

- Look at the local area around Cottingham
- Identify the human and physical features which can be seen in and around Cottingham
- Complete and analyse fieldwork data about the traffic levels in Cottingham
- Decide if Cottingham is a town or a village

In computing we will...

- Apply what we have learnt throughout the year to other areas of the curriculum

In personal development we will...

- Continue our work on personal relationships; covering issues such as jealousy, love, loss and peer pressure

In science we will...

- Continue our learning on forces and magnets - looking at different types of forces and how they work with and against each other
- We will learn about how sound is made and how it travels to our ears
- We will investigate the pitch and the object which has produced the sound
- We will investigate volume and the size of soundwaves
